Homeschool Resources

Catalog 2023-2024

Who We Are

Family Academy, and its founder Diana McAlister, an advocate for the Homeschool Law in Washington state, is over 40 years old!

We are....

- A licensed and approved private school in the State of Washington that caters to Home Educators
- A 5-day school in Arlington.
- Several 3-day and 4-day schools in Washington
- The largest private school extension program in the state.
- Thirty-two teachers in six states....and growing!
- Family Academy online caters to high school students and parents as well as students with special needs.

Our network of Teacher Consultants work together to give you the best possible experience.

Check us out at our website!
www.familyacademy.org

OUR MISSION

To put parents in the "driver's seat" of their children's education, and support growth into God-given purposes

School
without walls

Walking side
by side with
families

Building
character in
students

Making a life
long
connection

- Homework Tutors
- Monthly Newsletters
- Teacher Consultant (TC) to help with planning
- TC to confer and advise
- Discounts on resources
- Meets the requirements of an umbrella school
- No state mandated testing

\$185.00 registration fee for the first four children
\$25.00 each for additional children in the family

Pay teachers directly for their services.

Program Overview

Family Directed Education

We are a unique private school-without-walls. For those just beginning with us, you will discover a most distinctive approach to education. By combining the powerful meld of home-centered learning with a Family Academy® Teacher Consultant and staff, you will find your student's academic program greatly enhanced and supported. This isn't just homeschooling, and it isn't just private school, but rather, the best of both. We call it "Family-Directed Education."

Our Beginnings

Our program began in 1981 with a few homeschooling families and a couple of former classroom teachers who did not want to put their own children into the traditional system they had just left. They purposed to not be a regular school or correspondence school or a publisher peddling a specific curriculum. These each require students and parents to compromise individual learning styles and academic needs to fit the program. This is also true of many on-line schools. Additionally, over the four decades of service, we have seen that effective education takes place in the context of relationships – most people need personal contact to make the learning meaningful and relevant.

Supporting Parents

Family Academy® believes real education empowers parents to raise their children to their full potential, academically, emotionally, socially, and spiritually. This process is greatly helped when parents can consult with quality teachers who support the family's learning program. Our staff and Teacher Consultants are Christians who have a living faith in Jesus Christ and implement a biblical worldview into the learning process. They believe in nurturing academic and personal excellence and have honed their experience and training to enrich the family's homeschooling efforts.

Transitioning Teens

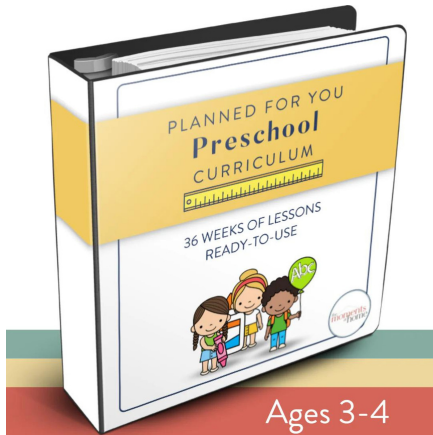

For parents with students on the secondary level (grades 7-12), they are discovering that their teens' developmental clock begins to kick into a new stage requiring more autonomy. Spiritually, children move into the "age of accountability". Often, many homeschoolers quit during junior high or high school due to academic challenges and this individuation process. In the ancient Jewish tradition, rabbis came along side while the older child/teen still worked and lived at home, learned a trade, and prepared for adulthood. In our program, the Family Academy® Teacher Consultant [TC] comes along side to help parents and teens make this transition.

Encouraging Independent Learning

Students and parents can develop a relationship with that Teacher Consultant who helps to hold the student accountable for the planned coursework and credits. Parents can confer with their Teacher Consultant, so students stay challenged and motivated. Sometimes there is a team of Teacher Consultants and expert instructors working together. The goal, however, is to empower the student to be self-motivated to mature in character and faith and become an independent learner.

Enclosed is all that Family Academy currently has to offer home educators, teachers and students. We are in the planning process for grade level course guides, so register as a family member today to keep getting updates!

PRE - K, KINDERGARTEN & ELEMENTARY

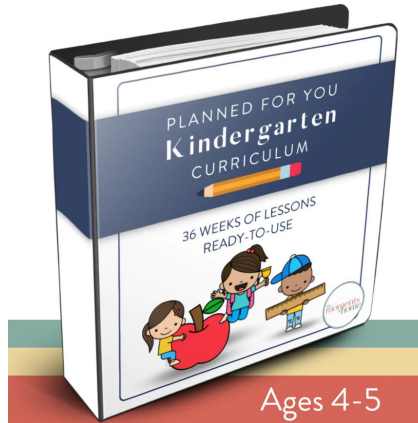

Ages 3-4

PRE-K CURRICULUM

Ready to use curriculum, complete with weekly schedules. All you do is print. Enough material for two years!

Publisher: Moments At Home

\$40.00

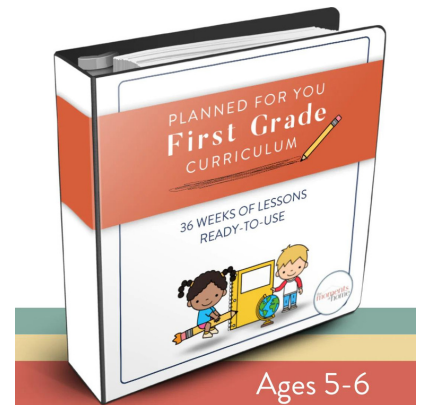

Ages 4-5

KINDERGARTEN CURRICULUM

Kindergarten Extension File.
Available in pdf.
Enough for a full year!

Publisher: Moments At Home

\$40.00

Ages 5-6

1ST GRADE CURRICULUM

Everything you need for a year of first grade.
Complete schedules ready for printing.

Publisher: Moments At Home

\$40.00

Moments at Home is written by an experienced home educator.

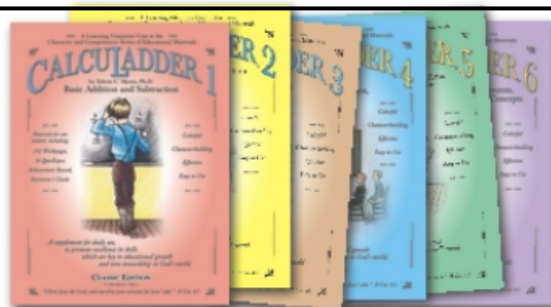

This curriculum goes above and beyond! It is filled with activities to inspire learning. You will not be disappointed.

Family Academy has an exclusive contract for our registered families only!

Prices fluctuate due to Moments at Home specials.

Enroll with Family Academy to purchase this item. Enroll for \$185.00 a year and receive all the benefits of membership, including our monthly newsletter.

Calculadder Math Drills

A unique system of reinforcing math facts.

One-year units each span 16 drills, testing in two-minute increments daily for five days. Students compete to improve their personal best time and score. This takes a family from First grade through Pre-Algebra.

Great as a stand alone curriculum or for added worksheets.

Calculadder 1

- basic addition
- basic subtraction

Calculadder 4

- intermediate & advanced division
- place values, rounding, estimating
- intro to fractions
- decimals in addition, subtraction, multiplication, division

Calculadder 2

- advanced addition and subtraction
- basic multiplication
- telling time

Calculadder 5

- basic fractions addition, subtraction, and terminology
- reducing, cancelling, LCD, etc.
- advanced addition, subtraction, multiplication, and division of fractions and mixed numbers

Calculadder 3

- advanced multiplication
- basic division

Calculadder 6

- fractions review
- percents, Roman numerals
- English and Metric units
- Converting between units
- Polygons, geometric concepts, finding areas

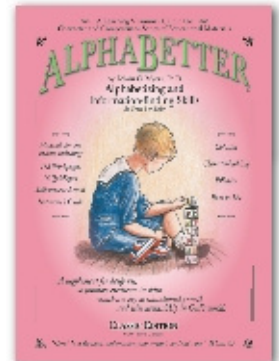

Comes with a Slate and one of each page worksheets to use over and over! \$35.00 each level plus shipping direct to your home. Or you can order all content Calculadder grades 1-3 on a CD to print your own and get Ready Writer as a free bonus! This CD cost is \$60.00

School At Home

ReadyWriter starts with exercises that drill your students in the six fundamental stylus strokes from which letters and numbers are formed. What's so neat, though, is that your 4-8 year-olds don't know they're practicing "fundamental stylus strokes" - they are having fun filling-in missing parts of the pictures!

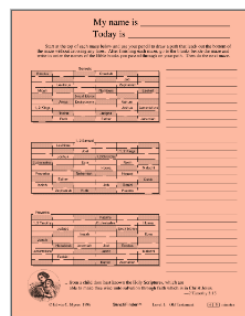

\$45.00

A key reason for our "reference phobia" can be a simple lack of mastery of the alphabet. When you have to back up to A and sing the Alphabet Song to figure out if Q comes before T, it can be a real pain to find things which are arranged alphabetically!

AlphaBetter helps end the pain in just minutes a day!

\$45.00

Actual pages are 8 1/2 x 11 inches.

SanctiFinder includes 8 drill levels. Your child repeats a given level each day until he can complete it correctly within the suggested time limit. Note that there are two time limits for each drill - one for older students and one for younger students. Your child repeats a given level each day, once a level is completed correctly, he advances to the next level.

Each SanctiFinder also includes a helpful Instructors Guide and an Achievement Record. Plus, you get a complete set of QuickKey grading keys to make scoring a breeze!

SanctiFinder is a great 9-week unit for school or church groups, for anyone over age 7 needing to find bible passages quickly.

Limited supplies on hand. Only available to registered families.

\$25.00

RESOURCES PRE-K THROUGH 8

PRE-K - 8 TIME 4 LEARNING ONLINE

\$25.95 per month

This is a great program for Pre-K through 8th grade. Comes with teacher oversight and you will add reading, spelling and science labs per grade. Economical way to teach at home but with our oversight to make it fun and engaging.

K-8 REPORT CARDS

\$35.00 per year

We can provide report cards for student work.

K-12 HEAR BUILDER

**\$20.00 per month
\$50.00 per semester**

We have a special program available for those who need some auditory assistance. Limited enrollment accepted due to limited space available.

ALEKS MATH

\$135.00 for 12 month

Online math for the struggling student through McGraw Hill. \$135.00 per year, worksheets can be generated, 3rd - 5th grade comes with Quick Tables for a fun way to learn math facts!

Teacher oversight.

ASSESSMENTS

Price Varies

We are able to meet your assessment needs! We have wonderful teachers trained to do both non-test assessments, test assessments and proctoring you giving the tests at home. Fees vary depending on the type of test and how your teacher needs to observe. All test results come with a certified letter.

IXL ONLINE

\$19.95 per month

Give your student a turn online to see how well they can do. Teacher oversight for the basic courses of English, Math, History and Science. Available for 3rd grade to 8th grade.

MYSCI LEARNING/PHONICS ASSISTANT

**\$140.00 first month
\$120.00 each month after**

My Sci Learning is great for all ages who need reading assistance. Fast Forward helps with reading basics. Great for special needs students who are behind. This requires a 6-month commitment. Work with Unlocking Learning Potential online.

MYSCI LEARNING BOOK COURSE

\$220.00

MySciLearn is great for all ages. Same as above but you get bookwork to do, which is ideal for autistic students.

Family Academy Online

Students and Parents

You can access any of our online courses for as little as \$25.00 per month per course.

Earn Credit for high school.

Teachers

Do you need an online resource to reach students who are abroad?

TCOA gives you the ability to have online courses. Inquire today!

Individualized Learning Plans

Family Academy is reaching more homeschool families than ever before, by offering online self-directed courses to suit your student's needs.

We can customize your student's experience to meet their career and college goals.

All student's will take a career placement exam when enrolling. A teacher consultant will reach out to you to help customize your students learning experience.

Vacation or Out of Country for Work?

We got you! Our online access will allow your teacher consultant to place homework assignments online. Don't miss a beat even if your family is on vacation or you're out of the country for work! Easy access worldwide!

Veteran's Diploma Program

We offer a unique opportunity for veterans who left high school to serve our great nation! When they came back, they were no longer eligible to complete high school.

With their DD214, they can earn a high school diploma, a tassel in red, white and blue (symbolic of our country's colors) and a sincere thank you for defending our country.

\$40.00 application fee. Some guidelines must be followed; inquire to see if your veteran qualifies.

We can also do Honorary Diplomas for a veteran who has passed away.

Becoming Adults in the 21st Century - by Maggie Dail

Have you noticed that it takes longer for children to become adults than in the past? It takes up to 15 years for what used to take about 3 years. Maggie Dail reviews the parents and the experts' advice on the subject. Dail and those she consults with begin with the premise that God's Word, the Bible, is the definitive word on parenting and any other endeavor in life.

SOI Systems STRUCTURE OF INTELLECT ASSESSMENT

One of our specialists can assist parents in this specialized testing for all students to learn where they may be behind. May be done through Zoom.

Given by Forensic
Psychologist, Emma Elliott

\$150.00 test
\$100, per hour working with
the families afterwards

Unlocking Learning Potential Online Assessments

Brain Training Assessment

For the Brain Training Assessment, we use the WRAT5 that measures progress in reading, spelling and math. This can be used as a Non-Test Assessment for Washington state homeschoolers. Parents complete the forms, then the Learning Specialist designs an Individualized Neurodevelopmental Plan. It is a list of activities to be completed in the home setting with our support.

Initial Cost: \$200 Follow-ups: \$150

Structure of Intellect Assessment

Dr. J.P. Guilford designed an assessment that decreased the attrition rate of dropouts of those training to be pilots during WWII. Drs. Mary and Robert Meeker further developed this model of assessing and training different learning abilities. For more information on the

For more information on the SOI
and to schedule,

(Pay Emma directly.)

KeyMath-R

Serves as a supplement to the BTA or NTA or as a stand-alone diagnostic math test for pre-high school skills. This assessment looks at 13 areas of math. Success for high school math depends on a good foundation. \$100.00

Non-Test Assessment (qualifies for WA State homeschoolers)

PIAT-R (Peabody Individual Achievement Test
Revised) Given orally – General Information, Reading Recognition, Reading Comprehension, Math
and Spelling.

- Optional – evaluation of a one-page writing sample – corrected with criteria that you receive along with an instructional lesson for one area of concern.
- Neurodevelopmental Screening (auditory and visual processing; dominance).
- Brief consultation with parents.
- NTA Report.
- Fulfills requirement for annual homeschool assessment in Washington State.

What are the fees?

- Standard Price - \$70.00
- Discount for two or more per family: \$60.00
- Optional: Writing Sample Assessment - \$25.00
- Optional: Learning Style Analysis - \$25.00

This test is specific to Maggie Dail

Thank you for your order!

Family Academy is a licensed and approved private school in the state of Washington that has been serving homeschool families since 1981. We are a non-denominational, faith-based organization dedicated to helping families train their children in faith, character, and academic excellence. Family Academy believes in supporting Family Directed Education through a unique blend of private school and home school. We are one of the largest private school extension programs for homeschoolers in the state, and have gone national with our concept, "school without walls."

Family Academy does not specifically dictate which curriculum must be used for math, English, history, science. The parents collaborate with the teacher. The teacher is responsible for evaluating a child's progress. The school can issue a diploma and transcripts for the child.

The extension program can also offer anonymity since no names are given to the state or the school district. The school only needs to report the number of students and student body demographics (grade, gender, race).

"As an ex-public-school teacher, education happened as a package and changed a bit from school to school. High stakes testing was truly the focus for the year. While there were some teachers who did not agree, a majority of employed teachers just went along with the program. This is the way education has taken place over the last quarter to half century and as the socialist movement progressed slowly in the field of education, the planned changes over time took place. The loser was always the student. With the Family Academy, a fresh perspective has evolved over time and presents parents with a viable alternative to public education. The information provided in the Able to Teach course is a breath of fresh air. It is a burst of sunshine which puts our kids....and America number one! I am excited to become a part of the Family Academy," -

New Teacher Consultant 2023
